District Of Oregon

FILED 03/05/10

Bobby Shane CHARLTON

Vs

Oregon Department of  
Correction Et AL,

Case No: 09-CV-1246-TC

Plaintiff Motion For  
Reconsideration On  
Motion For Request  
For appointment of Counsel.  
28 U.S.C.S. § 1915 (d)

1

A federal Court has a duty under  
28 USCS § 1915 (d) to assist a Party  
in obtaining Counsel willing to Serve  
for little or no compensation.

The court does not discharge this  
duty if it makes no attempt to  
request the assistance of volunteer  
Counsel or, where the record is not  
otherwise clear, explain its failure  
to do so.

2

Plaintiff understands that there is no  
Constitutional right to Counsel in

a civil case. He understand that the Courts can not force An Attorney to take a case in Civil Matter. However, This does not discharge The courts duty to attempt to request assistance of a Counsel. ~~Of course~~; if the claimant meets the qualifications.

3

The courts must adequately determine if the claimant meets these qualifications. They must consider the situation and fact that is laid before them, and give just reasoning why the court will not, or does not, at least put forth the duty to attempt to request assistance of a Counsel. See United State of America V. 30.64 Acres of Land

4

Claimant does not feel the request made for Counsel ~~adequately~~ was adequately reviewed and taken into consideration, for the court did not

address ~~to~~ any of the issues the plaintiff brought up and ~~showed~~ showed facts of there-of. The courts didn't address the facts.

5

Claimant understands that only under exceptional circumstances they will (Courts) request for counselor under 28 USC § 1915(d)

Claimant feels he meets these requirement.

### Facts Of Situation

1

Claimant has stated a claim. Or in the courts opinion, May have stated a claim well enough to process the lawsuit, under the 8th and 14th amendment in his suit.

2

Claimant is in IMU (intensive management unit).

Here he is locked down in a single Man cell all day and night. He

is only <sup>Allowed</sup> ~~stand~~ out of cell for a 30 minute yard, and 10 To 15 minute shower.

Because of this, Claimant, has very very little, to No access to law library and or legal help. Which he Has shown and explained in his first, and amended request for Counselor

3

Because of claimant low I.Q and education and the situation he is in, he is unable to adequately articulate his claim in the light of the complexity the legal issues involved

In addition to this, claimant does not have the ability to investigate the Facts of the case the likelihood of conflicting testimony requiring skilled cross-examination, the litigant's ability to adequately present the case.

Again see; United States V 30.64 Acres of land.

4

4

Claimant is ~~indeg~~ indigent. Which has already been establish.

### Request

1

Claimant comes before the court to Please ask that they re-review his request for counsel. Please review his fist request and the amendment thereof.

I ask the courts to please put forth some help in maybe finding me an Attorney to take My case.

2.

I have tried writing a few Attorneys Myself so ~~fast~~<sup>fast</sup>. But please keep in mind, that part of my suit is on the fact that O.D.O.C. will "Not allow" me legal library envelopes to send to Any Attorney at all.

I am indigent. I am only allowed 5 basic envelope a month. Which only hold 5 sheets of paper. So I can't really send out

to many letter a month, and I really can't send much to the Attorney as far as proof, or information.

See exhibit (N) that was sent with first suit. Also see enclosed Proof

Meeting Requirement.

Claimant feels that because he is in prison on lockdown with no access to law library other than by Kyle. And the legal aids there of, have for the most part refused me help. "They said, 'they don't do civil matters.'" See returned Kyle that was sent with first request, for request of court appointed ~~cor~~ counselor, to show proof of this. And along with his low IQ and medical problem/injury due to the matter ~~in~~ the lawsuit, he feels he meets the exceptional circumstances that is required for the court to at least try and help find ~~at~~ a counselor

One last Point that I forgot to bring up.

Was; Doc Official has out right refused me any help in a investigation and finding out and giving me the name of a witness that I asked for. Even though the law says that they are suppost to do every-thing they can assisting in obtaining ~~ever~~ evidence and interviewing with witnesses & for Inmate

Re: Request for Information

This is in response to your Inmate Communication to Superintendent Rick Coursey, dated April 2, 2009 wherein you request that the name of a permanently paralyzed inmate that was assigned to the infirmary at TRCI while you were there. The superintendent has asked me to review the request and provide you with a response on his behalf.

It is not appropriate for me to research for you who the subject inmate might be and then provide you with his name directly to you. You state that this is part of a process that will lead to a law suit against TRCI and the medical care and treatment at that facility. You might consider developing your case by the merits that you offer and focus on any witnesses later. However, I can not provide you directly the information that you request.

Your request to have this information researched and provided to you is therefore denied.

Cc: R. Coursey, Superintendent  
File

*This is a returned response to a letter I wrote asking for help from the Superintendent to get the name of a witness and proper investigation. Which they flatout denied. Even though Due Process laws makes it plain and clear that they are suppost to do everthing they can to make sure I get adequate help in an investigation and find witness that are request*

 to have to have surgery and fast.

So I went and in for surgery. Then  
 I had to stay in the infirmary for 6  
 weeks under strict rules not to do  
 anything. Not even make my bed.

~~When I got~~ I was told that I  
 now have nerve damage and muscle

State your issue in detail: I just told you. So I need all the help I can get.I don't really know what I'm doing but I'm trying to learn what I need to do. I am writing The ACLU to see if I can get any help from them. I know I have a heads down win case if I can get the proper proper help.I am still in the grievance process. I just sent in one grievance appeal a few days ago. There is like 4 more grievance yet to come back. I have even grieved the grievance coordinator at TIRCI for not processing my grievance under Pauls reasoning.

And yes they were really blatantly bogus reasoning that can be no question that they were just a flat out denial of my Due process rights.The Doctor at TIRCI has some kind of medical condition. I thought the dude was on Meth. but I am told he has some kind of a nerve disease that affects him in the same way that you would swear he was on

Also, I met another dude over there in the infirmary that ~~sa~~ told me that he was going through the something that I was. And like me, ~~tried~~ everything to get medical help by the same Doctor.
